Election/Restriction

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Group I: The species of an individual wrapping container as shown in Figures 1-7.

Group II: The species of an individual wrapping container as shown in Figures 8-9 and 16-18.

Group III: The species of an individual wrapping container as shown in Figure 10.

Group IV: The species of an individual wrapping container as shown in Figures 11-12.

Group V: The species of an individual wrapping container as shown in Figures 13-14.

Group VI: The species of an individual wrapping container as shown in Figure 15.

Group VII: The species of an individual wrapping container as shown in Figure 19-20.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 and 10 are appeared to be generic.

Applicant is advised that a reply to this requirement **must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added otherwise the reply is**

Art Unit: 3728

considered improper. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
